All deferred submittal items must be listed on the approved plans and be placed in a conspicuous location. The process is as follows:

- Deferred submittal items must first be reviewed by the Engineer or Architect in responsible charge.
- The deferred submittal items are then submitted to the AHJ for review. The Engineer or Architect in responsible charge shall attach a letter to the submittal stating that the deferred item is in conformance with the design of the structure.
- Deferred submittal items shall not be installed until approved by the AHJ.
